NOTICE OF ALLOWABILITY

Status of the Claims

This action is in response to papers filed 23 September 2004 in which claims 1-14, 17-

22 and 24 were amended and claims 16 and 33 were canceled. All of the amendments have

been thoroughly reviewed and entered. The previous rejections in the Office Action dated 24

May 2004 are withdrawn in view of the amendments. The amendments place the claims in

condition for allowance.

Claims 1-14, 17-32, 34-43 and 60-61 are in condition for allowance.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims are drawn to an electrically conducting carbon nanotube array. The array

comprising at least one pair of nanotubes attached at one end to a substrate, metallic material

attached to the nanotubes and an electrically conductive bio-compound attached to the

metallic material providing an electrical connection between the pair of nanotubes. While the

cited prior art teaches bio-compounds attached to carbon nanotubes and teaches bio-

molecules forming an electrical bridge between electrodes, the prior art does not teach or

suggest a pair of end-immobilized carbon nanotubes having an electrically conductive

biomolecule bridge therebetween.

Any comments considered necessary by applicant must be submitted no later than the

payment of the issue fee and, to avoid processing delays, should preferably accompany the

issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for

Allowance."

Conclusion

Claims 1-14, 17-32, 34-43 and 60-61 are in condition for allowance.

Art Unit: 1634

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BJ Forman whose telephone number is (571) 272-0741. The examiner can normally be reached on 6:00 TO 3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Jones can be reached on (571) 272-0745. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to (571) 272-0547.

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.

For all other customer support, please call the USPTO Call Center (UCC) at 800-786-9199.
